### **ABB IRC5 OPERATING MANUAL Pdf Download | ManualsLib**

I am looking for suggestions on how to program in RAPID two areas of palletizing (as the image shows). Any way to alternate between both infeeders so that the robot works simultaneously in both zones? I need the product that arrives first, regardless of which side (right or left), leave the second as in queue, then be taken and palletized.

### **Any suggestions to program two palletizing ... - ABB Robotics**

Palletizing rates can vary anywhere from 8 to 30 cases/min for a single robot picking a single product at a time depending on stacking patterns, requirements, and even higher throughput if the robot is picking rows of product, or full layer of products.
