In the US, there are just over 41,500 practicing anesthesiologists. Anesthesiology focuses on pain relief of patients during surgery, which requires a significant amount of care and planning. Generally, the administration of anesthesia is very safe, however there are some associated risks including increased chances of seizures, high blood pressure, diabetes, and obstructive sleep apnea.

Anesthesiology Expert Witnesses

In addition to providing clinical care, Dr. Novak is available for experienced medical-legal expert witness consultation, case review, or testimony in the specialties of anesthesiology and perioperative internal medicine. Dr. Novak is board certified by both the American Board of Anesthesiology and the American Board of Internal Medicine.
