Introduction. The General Data Protection Regulation 1 (GDPR) introduces a new and seemingly quite far-reaching exemption to the general prohibition for the processing of genetic data. Namely, the 'research exemption' in Article 9(2)(j) under which sensitive personal data, including genetic data, can be processed without adhering to the strict consent requirements in Article 9(2)(a) ...

FamilyTreeDNA does not share genetic data with law enforcement. It is also true that FamilyTreeDNA does allow law enforcement to submit crime-scene DNA to its matching database. The fact that both statements are true has confounded the media, resulting in incorrect and misleading reporting, as was the case with The Ticker Science article titled, "Is Testing Your Ancestry Safe?"

## **A letter to the editor — genetic data and law enforcement ...**

Abstract. Law enforcement agencies are increasingly turning to genetic databases as a way of solving crime, either through requesting the DNA of an identified suspect from a database or, more commonly, by matching crime-scene DNA with DNA profiles in a database in an attempt to identify a suspect or a family member of a suspect.
