in the IB Diploma Programme. Grade descriptors consist of characteristics of performance at each grade. The descriptors apply to groups of subjects but substantial similarity exists across sets of group grade descriptors. Senior examiners use these grade descriptors when determining grade boundaries for examination papers and coursework components.

To score 7 IB points in chemistry the IA should have approx. 17 (varies with grade boundaries) or above marks out of 24. It is not an impossible work if the assessment criteria are well interpreted and followed. The most important thing about IA is selection of topic and how well it can be connected to real life and for the benefit of society.
