**Tarski's Truth Definitions (Stanford Encyclopedia of Philosophy)**  
Definition and related disciplines. Philosophy of logic is the area of philosophy that studies the nature of logic. Like many other disciplines, logic involves various philosophical presuppositions which are addressed by the philosophy of logic. The philosophy of logic can be understood in analogy to other discipline-specific branches of philosophy; just like the philosophy of science ...

Footnotes to Plato. Having fled to a tavern following the presentation at an academic conference of a paper on modal verbs, I found your recent remark about the woke approach to grammar and language indicative of my broad experience as an English teacher. I would point out only one thing: when you say the wokester won't teach his/her/xe students grammar, a reader might presume you are ...
